
WORLDS OF WONDER

Product List

Compiled by Doll Veraldi

Note: This Product List is based on lists from WOW at the time they closed their doors and was obtained around "seven corners" from an employee of the company. Additional information was added from other collectors, the 1989 and 1990 catalogs and other lists . If anyone has corrections, omissions, or can provide additional WOW information (company history, subtle differences in toys), please email **doll@bravo-illustration.com** and a free update will be sent to you.

A color publication is in process with photographs. Since my own collection is not complete, anyone having information to submit for this publication will receive a credit if item(s) are used.
